

Environmental Policy

Wiretronic fundamental values, objectives and activities to attract, retain and develop employees and provide a safe and healthful workplace include providing efficient and sustainable services and products to our customers.

Wiretronic shall comply with existing legislation and cooperate with authorities and organisations to develop our environmental work in harmony with environmental objectives of the society and strive to prevent any unnecessary emissions or pollution to protect the environment.

Committed management, excellent communication and understanding of environmental targets and processes with performance monitoring results in continuous improvement.
